Allows installation directly at source
- **Automatic disposal**
Briquette ejection by conveying channel directly into containers
- **Saving of transport costs**
Volume reduction of up to 90%
- **High reliability and function safety**
- **High throughput**
Up to 45.000 bottles per hour
- **Secure devaluation**
Deposit bottles are guaranteed useless
- **Revenues for briquettes**

Partner of the beverage

since 20 years

Customer statements

'We have been working together with Strautmann Umwelttechnik in the field of PET briquetting for 14 years. For us there is no alternative.'

Guido Schürkötter, Manager
Salvus Mineralbrunnen GmbH

'We have used Strautmann briquetters since 2002. The long life duration of the machines and their reliable service are great. Good availability and an enormous quick supply of spare parts has also convinced us that Strautmann is a sustainable partner.'

Peter Tröger, Head of Technical Administration
Frankenwald Mineralbrunnen
Getränke GmbH & Co. KG

'We, along with the Kondrauer Mineralbrunnen, are very satisfied with the product, which is shown by the fact that we already have two of the Strautmann machines.'

André Emmerth, Facility Manager
Staatliche Mineralbrunnen AG

'The reliability of the system convinced us. In addition their good customer service was the key factor for purchasing the machine.'

Ewald Kirstgen, Head of Recycling Center
Gerolsteiner Brunnen GmbH & Co. KG
